**MRCB Switches Off for Earth Hour 2014**

---

**Kuala Lumpur Sentral CBD, 30 March 2015 –** Malaysian Resources Corporation Berhad's (MRCB) Kuala Lumpur Sentral CBD development as well as its Plaza Alam Sentral property in Shah Alam switched off for Earth Hour 2015, in the company's sixth year of participation in the global Earth Hour movement.

The one-hour Earth Hour 2015 moment of reflection on the effort to fend off global warming on 28 March was kicked off at 8.30 pm as MRCB switched off all non-essential lighting for one hour, in buildings and properties under its management.

This included buildings in the Kuala Lumpur Sentral CBD development, comprising the iconic Green office campus style Platinum Sentral; newly completed Nu Tower 1 and 2, which houses MRCB's Headquarters; the new integrated lifestyle retail mall, NU Sentral; Malaysia's largest and busiest transport hub, Stesen Sentral Kuala Lumpur; the Plaza Sentral and 1 Sentral office towers; the lifestyle centre Sooka Sentral and Menara Shell another two award-winning Green buildings, as well the company's Plaza Alam Sentral retail property in Shah Alam retail property.

from page 1

As a responsible corporate citizen, MRCB is committed to the effort to help create awareness on global warming. Earth Hour is one of the ways this commitment is expressed by MRCB, a property developer that has taken the extra mile by being more pro-active in incorporating sustainable elements in all its property development project.

MRCB has incorporated green building requirements in projects at the Kuala Lumpur Sentral CBD development, utilizing international green building certification standards, notably, the US-based Leadership in Energy and Environmental Design (LEED), Singapore's BCA Green Mark and Malaysia's Green Building Index (GBI) for all its new projects that include NU Sentral, Nu Tower 1 and 2, Platinum Sentral and Menara Shell.

MRCB also encourages its employees to take part in Earth Hour on a personal level by spreading the message to their friends, relatives and families to sign up and participate in this global effort.

In compliance to sustainable development, MRCB has been actively involved in river, beach and coastline rehabilitation projects. The MRCB Group environmental rehabilitation and preservation projects include the Sungai Perai in Pulau Pinang and Kuala Sungai Pahang and Sungai Kuantan in Pahang Darul Makmur.

MRCB was also awarded with an iconic and first ever project in Malaysia to install high voltage overhead electricity transmission line crossing over a stretch of sea in the Straits of Melaka from Pantai Siring to Pulau Besar in Melaka.

**About MRCB**

MRCB is a leading urban property and infrastructure developer in the country. The Group specialises in civil, environmental and energy infrastructure development including river and beach rehabilitation projects, road works, road concessions, educational colleges, hospitals, power plants, and is the nation's biggest developer of high-voltage transmission networks.

As the master developer of Kuala Lumpur Sentral CBD, MRCB has constructed eight green buildings for this largest transportation hub development in Malaysia, which also has the most number of FIABCI award winning buildings in one single location. We are also the developer for the premier urban regeneration project, PJ Sentral Garden City.
